KANSAS CITY, Aug. 17 .- Boats are again in use to transport persons between the birthday of Mrs. Elizabeth McCoy was cel- two Kansas Citys, the James-street foot and wagon bridge and the Metropolitan Street-railway Company's bridge over the Mrs. Thomas Marks, a daughter, from Kansas river having been carried out by the strong current. The river is higher than at any time since the June flood and five generation represented in this family, other structures are in danger. The wrecked brilges were temporary pile affairs constructed hastily two months ago. A further rise is expected, as half a dozen tributaries to the Kansas west of here are bank full.

The river has been turbulent for over a week past, and the strong current has brought in great quantities of driftwood. The James-street bridge was partly wrecked yesterday. Soon after it went out this morning it floated down and took out the street-railway bridge, severing the main line of communication across the river and carrying with it the Kansas City gas main and telephone cable. To-night the Kansas Citys were in darkness. The wreckage of the two bridges finally lodged against the Chicago Great Western Railway bridge, and, while it weakened that structure and put it out of service, it will, it is believed, remain intact.

He then said that he was not informed that Russia had consented to the opening. Finally he refused on the ground that China was unable to open towns which were held by another power. When the present settlement was proposed with the explanation that China must presume that Russia intended to fulfill her evacuation agreement, Prince Ching reluctantly gave in.
